

Fraction Dominoes - Set 1 Reference Page

- Fraction Dominoes - Set 1 contains four pages each of four dominoes.
- Each page has the same four fractions, which will allow children to make a simple loop with one colour or to mix them up. The final page has pictures which are more demanding.
- This set is designed for use by Year 2, to meet the objective of recognising that one whole can be broken down into two halves or four identical quarters, and that two halves or four quarters are equivalent to one whole.

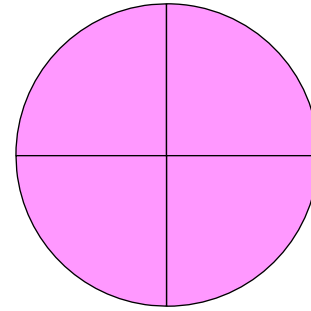

- The final page is an activity board, which will accommodate a loop four dominoes.
- Alternatively, you may like to make several boards, cut them out and let children design a game around them. For example, placing several boards together will allow joining from one board to the next.

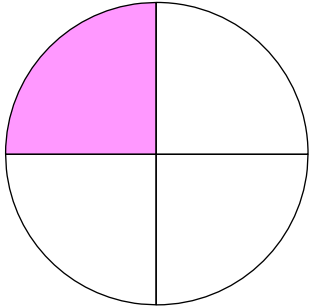

Fraction Dominoes - Set 1

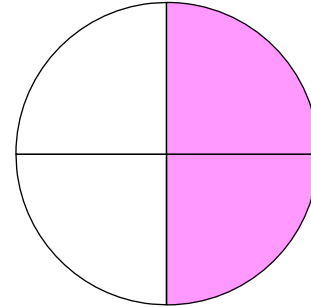

one
whole

$\frac{1}{4}$

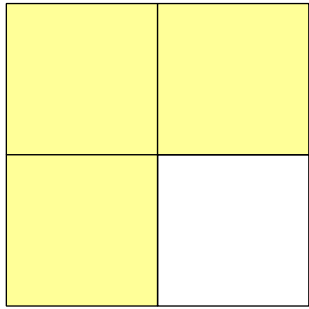

$\frac{1}{2}$

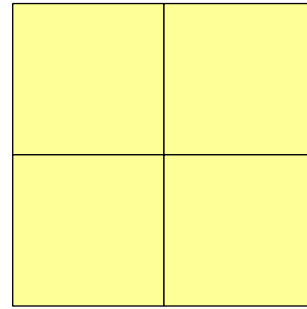

$\frac{3}{4}$

Make sure to cut where the scissors indicate.

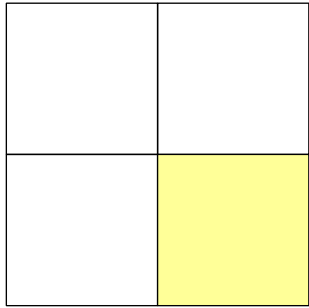

Fraction Dominoes - Set 1

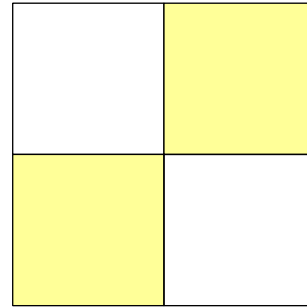

one
whole

$$\frac{1}{4}$$

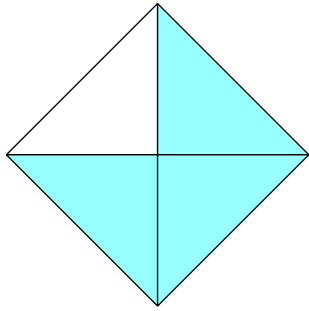

$$\frac{1}{2}$$

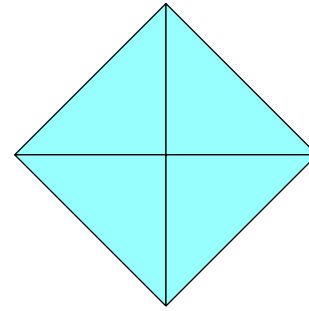

$$\frac{3}{4}$$

Make sure to cut where the scissors indicate.

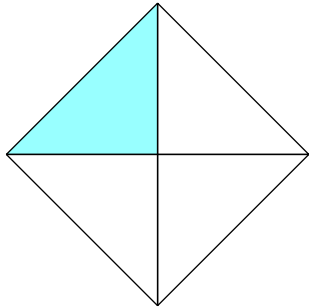

Fraction Dominoes - Set 1

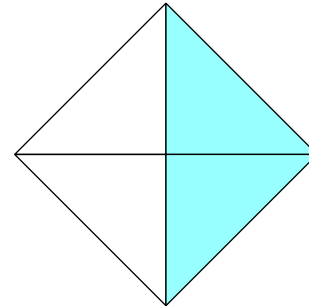

one
whole

$\frac{1}{4}$

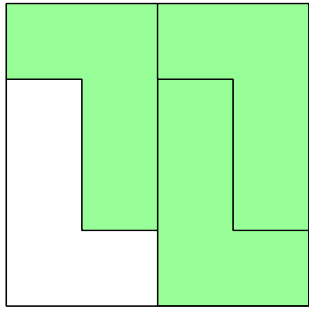

$\frac{1}{2}$

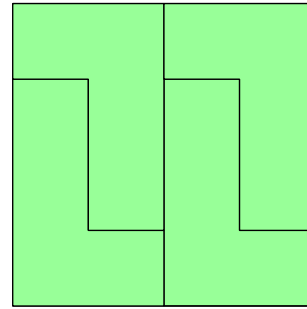

$\frac{3}{4}$

Make sure to cut where the scissors indicate.

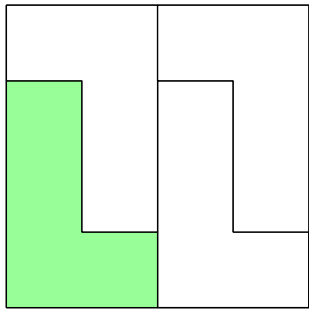

Fraction Dominoes - Set 1

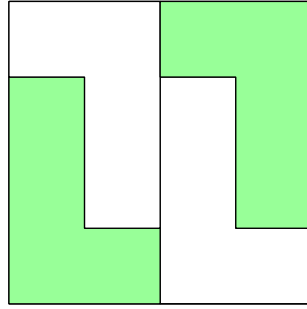

one
whole

$\frac{1}{4}$

$\frac{1}{2}$

$\frac{3}{4}$

Make sure to cut where the scissors indicate.

Fraction Dominoes

Place four dominoes to make a loop.
