

Browse - Print - Use

**Works on all computers with
a CD drive - just £23.50 +P&P**

www.numeracyCD.com

You get a CD which lets you browse a vast range of resources, then print just the ones you want. The CD uses any browser to let you see what is available and then Acrobat (which is supplied on the CD) to print. This way you will get exactly what you see, whatever computer you are using.

Number Cards 0-9 small, 0-9 medium, 1-100 medium, 0-10 for display, 0-10 giant floor sized, 0-20 giant sized with footprints, 0-10 with number names and pictures, fractions.

Place Value Cards Small, medium and large sized cards from 0 to 9999

Follow-Me Cards Three sets designed to work with groups of various sizes. Sets available cover multiplication by 2,5 and 10, use of all four operations, halving and doubling.

Special Paper All the paper you could want for all those odd occasions. You can have paper with squares triangles or hexagons. It can be lined or dotted, blue or black, faint, normal or bold.

Number lines Print large ones for wall display, smaller ones for desk-top use or smaller still for individual activities. Number lines can be marked in units or decimals from 0-10 or 0-100, or can include negative numbers.

Dominoes A full set of large dominoes.

Number Grids A large range is available, including grids from 0-99, 1-100 and multiplication grids. Sizes range from small and medium for individual use, up to poster size for the wall, made from 6 sheets. You also get a cutting plan for a versatile jig saw puzzle, based on the display sized grids.

Nets There are nets for many of the solids you need to make.

Number Fans Number fans allow children to display answers to questions during whole class teaching. Three different types are on the CD.

Activities You get dozens of activities, including several sets of cross numbers, puzzles with multiples and factors, nets of many of the main solids, nets puzzles, tangrams, pictures of 3D solids, 2D shape sorting cards, shape property cards, number target games, number lines and magic squares.
